

Leonardo Perez Figueroa

Designer with more than 7 years of experience, specialized in UI/UX, Prototype and more.

I'm Leonardo, a UI/UX designer from the Dominican Republic. I have more than 7 years of experience in the field and I'm passionate about creating beautiful and functional designs that solve complex problems. My design philosophy focuses on empathy, curiosity, and continuous improvement.

Experience

UI/UX Designer

At UNPHU

Feb 2019-2026

Led the design and development of institutional web systems, ensuring alignment with the university's brand identity and user needs. Collaborated with academic and administrative departments to deliver intuitive digital experiences for students, faculty, and staff.

Front-End Developer

At Prixet Technology

Sep 2018 - 2019

Responsible for designing and developing web interfaces for hotspot platforms and WiFi-based advertising systems. Contributed across the full process, from prototyping in Adobe XD to front-end implementation with HTML, CSS, and JavaScript.

UI/UX Designer

At Dream Team Social media

Mar 2014 - 2016

Delivered end-to-end UI design and web solutions as an agency contractor for corporate, political, and government clients. Designed intuitive digital interfaces, visual systems, and responsive websites tailored to diverse brand requirements and strict institutional standards.
